Headphone Jack(3.5mm audio output)

AC IN 6V

AC Power Input

Radio Antenna

To improve reception it is recommended to fully extend the antenna on the back of the radio.
Extendable Antenna

Carry Handle

Powering Your Radio
Using the Power Adapter (included)

1. Plug the AC6V power adapter (included) into the AC power input on the side of your radio.

2. Plug the other end of the power cord into an outlet.

WARNING: DO NOT, CHARGE THE RADIO WHILE IT IS USING BATTERY POWER, TAKE ALL THE BATTERIES OUT BEFORE USING THE POWER ADAPTER.

Using Battery Power

Requires 3 size D batteries (not included).

1. Pull the battery compartment tab down and lift up to open battery cover.

2. Insert 3 size D batteries (not included) into the battery compartment. Make sure the batteries are correctly aligned, as shown in the figure.

Using Your Radio

Turning Your Radio On and Off

Press the **POWER** button on the front of the radio to Power the radio on. Press the **POWER** button again to power the radio off.

Finding a Radio Station

Note: To improve reception it is recommended to fully extend the antenna on the back of the radio.

1. With the radio on, select either the FM or AM frequency band by pressing the **AM/FM** button.

2. Press and hold the **TUNE** buttons to start automatically scanning radio station frequencies. Once a radio station has been found the search will stop.

3. To manually tune the radio frequency, press the **TUNE** buttons.

Using the Memory Function (Auto)

You can save up to 20 FM and 20 AM stations as presets for easy access to your favorite radio stations.

1. Press and hold the **MEMORY** button to scan and store all available stations.

2. Press **PRESET NUMBER** buttons (1-5) for the first five saved stations.

3. Press the **PRESET** button. Then press the **TUNE** buttons to search through saved stations (6-20).
Using the Memory Function (Manual)

1. Press the **TUNE** buttons to select the frequency you want.

2. Press the **MEMORY** button.

3. Press the **TUNE** buttons to select which preset number you want to save the station to (1-20).

4. Press the **MEMORY** button to save.

5. Press the **PRESET** button. Press the **TUNE** buttons to search through saved stations (1-20) or press PRESET NUMBER buttons to quickly select stations saved from (1-5).

Using Headphones

Using a 3.5mm audio cable, insert the 3.5mm plug into the headphone jack on the radio (Headphones not included).

Important: To avoid hearing damage, set the volume to the lowest level before placing your Headphones on your ears. Be careful when listening at high volume for prolonged periods of time, as it can damage your hearing.
